Priya Sharma - Machine Learning & NLP Specialist

Summary:

Data Scientist and AI Engineer with 4 years of experience specializing in NLP, sentence embeddings, and Python architectures

Technical Skills:

- Machine Learning / AI: PyTorch, Scikit-learn, HuggingFace, NLP, Sentence-Transformers, Vector DBs
- Backend: Python, FastAPI, REST APIs, SQL, Pandas, NumPy
- Cloud & Infrastructure: Docker, AWS, Git, MLflow

Experience:

Machine Learning Engineer | Cortex Labs (2023 - Present)

- Deployed semantic search and ranking engine using sentence-transformers and FAISS vector index.
- Developed FastAPI wrapper services to serve real-time model predictions with <50ms latency.
- Authored automated evaluation pipelines measuring top-10 ranking accuracy and NDCG.

Data Scientist | Optima Analytics (2021 - 2023)

- Trained classification and regression models in Python using scikit-learn and PyTorch.

Education:

Master of Science in Artificial Intelligence (2021)

Bachelor of Technology in Information Technology (2019)
